

# A.C.E CONFERENCE 2025

APPLIED HVAC & R, COMFORT & EFFICIENCY CONFERENCE

11 - 12 SEPT 2025

KL CONVENTION CENTRE, MALAYSIA

Innovating Cleanroom & HVAC Solutions:  
Sustainability, Technology, and Compliance for the Future

Held Concurrently with:

9 > 12  
SEPT 2025  
10AM > 6PM

KLCC  
KL CONVENTION  
CENTRE, MALAYSIA

Jointly Organised by:

# THE A.C.E CONFERENCE 2025: WHERE CLEANROOM, HVAC & R, AND SUSTAINABILITY CONVERGE

Join the A.C.E Conference 2025, where cleanroom, HVAC & R, and sustainability converge to shape the future of the built environment. Jointly organised by ASHRAE Malaysia Chapter and C.I.S, the event brings together engineers, cleanroom specialists, and policymakers to explore smart technologies, energy-efficient solutions, and global standards.

As demand grows, A.C.E provides a timely platform to address regulations, system integration, and decarbonisation - offering delegates insights, connections, and future-ready solutions in just two impactful days.

## WHO WILL BE THERE?

- ✓ HVAC & R Engineers, Cleanroom Specialists, Facility Managers  
Industry leaders and key decision-makers
- ✓ Policymakers and regulatory authorities
- ✓ Representatives from HVAC & R and cleanroom associations
- ✓ Researchers, academics, and technical experts
- ✓ Sustainability and ESG professionals
- ✓ Emerging professionals and students in HVAC & cleanroom industries
- ✓ NGOs and organizations driving sustainable initiatives

### HIGH-IMPACT SESSIONS & EXPERT INSIGHTS

Engage with keynotes, technical talks, and panel discussions led by regional and international thought leaders to drive your business forward

### TECHNICAL VISIT TO MIMOS

Experience advanced HVAC & R and cleanroom technologies in a real-world R&D setting

*(Limited to 40 participants – First come, first served!)*

### ASEAN & INTERNATIONAL PERSPECTIVES

Gain insights into cross-border innovations, challenges, and strategies shaping the future of HVAC & R and cleanroom practices across the region

# WHY ATTEND A.C.E CONFERENCE 2025

## ALIGN WITH THE UNITED NATIONS (UN) SUSTAINABLE DEVELOPMENT GOALS

### SDG 9: INDUSTRY, INNOVATION & INFRASTRUCTURE

Experience the latest cleanroom and HVAC technologies designed for smarter, future-ready industries

### SDG 11: SUSTAINABLE CITIES & COMMUNITIES

Discover how advanced systems are creating healthier, more resilient built environments

### SDG 12: RESPONSIBLE CONSUMPTION & PRODUCTION

Learn practical ways to implement efficient, low-impact solutions in clean environments

### SDG 13: CLIMATE ACTION

Join the shift toward decarbonisation with energy-efficient HVAC innovations that reduce environmental footprint

#### GAIN ACTIONABLE INDUSTRY INSIGHTS

Engage with keynotes, technical talks, and panel discussions led by regional and international thought leaders to drive your business forward

#### KEEP PACE WITH EVOLVING STANDARDS

Experience advanced HVAC & R and cleanroom technologies in a real-world R&D setting

#### CONNECT WITH INDUSTRY DECISION-MAKERS

Gain insights into cross-border innovations, challenges, and strategies shaping the future of HVAC & R and cleanroom practices across the region

## CONFERENCE PROGRAMME HIGHLIGHTS

### DAY 1: INNOVATION, COMPLIANCE & DECARBONISATION

- Opening Keynote on sustainability and energy efficiency in cleanroom engineering
- Technical sessions on cleanroom design, smart compliance, and HVAC filtration technologies
- Industry-led tech Talks featuring cutting-edge solutions
- Panel discussion on decarbonising facilities and advancing low-carbon practices

### DAY 2: RESILIENCE, SMART TECHNOLOGIES & REAL-WORLD INSIGHTS

- Keynote on global cleanroom standards and regulatory trends
- Sessions on risk mitigation, IoT, and intelligent monitoring
- Panel discussion on smart sensor integration for enhanced cleanroom performance
- Exclusive technical visit to MIMOS to experience advanced cleanroom infrastructure in action

# CONCURRENT EXHIBITION

Strategically co-located with ASEAN's leading Engineering and HVAC & R Exhibition, this synergy provides conference delegates with direct access to cutting-edge technologies, industry innovations, and over 13,800 engineering professionals—offering valuable networking opportunities and insights to drive business growth.
