# Kigali's Impact: A Conversation about Refrigerants, Regulations, Reduction and Alternatives.

During the 28th Meeting of the Parties to the Montreal Protocol on Substances that Deplete the Ozone Layer in Kigali/Rwanda, more than 170 countries agreed to amend the Protocol. The Kigali Amendment aims for the phase-down of hydrofluorocarbons (HFCs) by cutting their production and consumption.

It is MASHRAE's pleasure to announce that we have invited 3 distinguished speakers in with great reputation in the HVAC industry in Malaysia, as well as the Department of Environment of Malaysia to be our keynote speaker for this webinar.
